

Top 25 Machine Learning Interview Questions

- 1. What is Machine Learning?**
- 2. Supervised vs Unsupervised Learning.**
- 3. Bias vs Variance.**
- 4. Underfitting vs Overfitting.**
- 5. Cross Validation.**
- 6. Train/Validation/Test split.**
- 7. Feature Engineering.**
- 8. Feature Selection.**
- 9. Handling Missing Values.**
- 10. Encoding Categorical Variables.**
- 11. Normalization vs Standardization.**
- 12. Linear Regression assumptions.**
- 13. Logistic Regression.**
- 14. Decision Trees.**
- 15. Random Forest.**
- 16. XGBoost.**
- 17. Support Vector Machines.**
- 18. KNN algorithm.**
- 19. Naive Bayes.**
- 20. K-Means Clustering.**
- 21. PCA.**
- 22. Evaluation Metrics.**
- 23. Class Imbalance handling.**
- 24. Hyperparameter Tuning.**
- 25. Explain one ML project end-to-end.**
